\*These prices are calculated for type A warehouses, i.e., warehouses that have railroad sidings. Type B warehouses, i.e., warehouses which are located over 300 meters away from a railroad siding, should add the cost of delivery, according to rates approved by local authorities, to these price lists.

\*Grade III includes certain established assortments of coal (cube, nut I, nut II, not standardized above 50 millimeters, and not standardized 18-80 millimeters) with a larger content of gangue (ash) than allowed by norms.
